2016 HERITAGE COLLECTION

The year was 1957.

The Jaguar D-Type racer had seen roaring success at Le Mans, time after time. But with the years passing and the introduction of new changes to regulations, the car had been rendered obsolete. 25 bare chassis were left untouched at the famous Browns Lane factory with nowhere to go. But Sir William Lyons had a vision. A vision that would go down in Jaguar's history forever.

His big idea was to turn the abandoned chassis into full, road-going specification. Minor changes were made to the D-Type's structure, with the addition of a passenger's side door, the removal of the divider between the passenger and driver, and the racing fin taken from behind the drivers seat. The XKSS was born.

On the evening of 12th February that same year, a terrible fire ripped through the factory. 9 of the 25 vehicles burnt to the ground. But from this tragedy, the new XKSS gained even greater exclusivity. With only 16 left in circulation, the car became a must-have collectable for the biggest stars of the USA.

The legend of the XKSS lives on through the Jaguar Heritage Collection - a celebration of this truly iconic vehicle. Inspired by the car's rebellious personality and the personalities that loved it, this exclusive range of luxury clothing, accessories and collectables is injected with the classic, understated style of the era.

JAGUAR XKSS SCALE MODEL 1:8 - BRITISH RACING GREEN

To call it exclusive would be an understatement. Only sixteen of these extraordinary cars were ever built and sold, one to the legendary Steve McQueen. Unveiled in 1957 the Jaguar XKSS was almost certainly the fastest production car of its day, reaching 60mph in just 5.2 seconds and topping out at 144mph.

So how do you reproduce such a legend? Only with the greatest care and reverence. This limited edition model has been handmade with meticulous attention to detail. Crafted to 1:8 scale, every aspect of its exterior, interior and engine bay has been replicated in precise detail.

Like the original car it celebrates, it truly is a thing of beauty.
